

# WEBINAR: Reuse your CAD data to create documentation faster and at lower cost

**LANGUAGE:** English

**WHEN:** October 20th 2016, 11.30AM - 12.00AM

**PRESENTER:** Maykel van Oirschot, Territory  
Technical Manager, SOLIDWORKS

---

**» [SIGN UP FOR FREE](#)**

---

With SOLIDWORKS Composer, you can create stunning life-like visuals and interactive animations of your product or process without waiting for physical prototypes.

SOLIDWORKS Composer allows even non-technical users the ability to create associative 2D and 3D instructions early in the design process, helping to save time and money.

This webinar will show you how fast and easy it is to create a great diversity of product documentation simply by using up-to-date 3D design data you already have:

- Assembly instructions
- Product manuals
- Marketing collateral
- Web content

**SIGN UP NOW.** Space is limited, so sign up today to learn how to seamlessly create compelling product documentation directly from your existing CAD models.

After the presentation, there will be an opportunity to ask questions.
