## CONFERENCE ANNOUNCEMENT

**Introduction** The new global challenges concerning health issues have been raised in 2020. The health care systems of many countries have faced unforeseen difficulties; social restrictions have become a new reality which many people were not ready to. Health has become the focus of those fields that seem to have had little to do with it in the past: economics, business, politics, diplomacy etc. Thus, the issue of disease control and public health become a common urgent issue that requires flexible and effective solutions.

**Purpose** Creation of a platform for cooperation between *educators, scientists, medical workers, businessmen, authorities, public activists* concerning health care issues through:

- discussion of important questions, sharing experience of assurance, support, care and consolidation of people's health by specialists of different spheres,
- formation of complex view of problems and working out collective team decisions concerning health care issues,
- searching for and / or creation of strategies of realization of multidisciplinary approaches solving questions of people's health saving and improving,
- making public involvement in formation of a responsible attitude of each person to personal health and the health of others.

**Working languages** Language of the materials - English  
Languages of the reports - English, Ukrainian, Lithuanian, Polish

**Conference topics**

- ***World's turbulence and its influence on health:*** changeability of the environment and challenges for physical / mental / social health and well-being; changes of attitudes to health at the time of social transformations; children, health, uncertainty; modern family and health; work / education and health in the modern world; health and lifestyle etc.

- **Health at the time of (post)pandemic:** lock-down and physical / mental / social health; the influence of quarantine on person's well-being; the consequences of COVID-19 pandemic; health problems caused by the quarantine restrictions; new perspective on vaccination; social challenges because of pandemic: the influence on family, education, health care; social contacts and health etc.
- **Health and innovations:** modern developments in the healthcare field; new diagnoses and the influence on society; twenty first century diseases and fighting against them on medical / social / individual level; accessibility of the medical, rehabilitation, psychological, social services; technologization and health; modern face of stigma etc.
- **Health: culture, values, morality:** health from the cultural perspective; religion and health; personal growth and health; axiological measurement of health; self-esteem vs. Self-enhancement as a dilemma of health; marginalization, discrimination, stigmatization in the context of health care problems; national safety and health; ethical problems of health care etc.

**April 10, 2021** – [fill-in the registration form](#)

The organizing committee reserves a right to reject the application of participation in the conference in case of nonconformity to conference topics or to guidelines, if the materials include plagiarism or in case of submission after a deadline.

If you send an abstract without further video- or poster-presentation, the abstract will not be included in a conference program.

Abstracts will be published in the author's edition. Authors (or their supervisors) are responsible for scientific content and quality of the materials.

**Nota bene!** If you have not received any reply from the organizing committee within 5 days after sending your abstract, please send an email once more, maybe some technical troubles appeared, and we did not receive your message.

**Contact details** If you have any questions, please send a message to the e-mail:  
**about the** [fnz@ucu.edu.ua](mailto:fnz@ucu.edu.ua)  
**conference**

**Looking for fruitful cooperation!**

## GUIDELINES FOR SPEAKERS

### Abstract guidelines

*An abstract is a short summary of the main points of the presentation that you are going to give at the conference. The abstract includes a generalized information on the results of your research, without any detailed descriptions, reference links etc. Instead, it is worthy to disclose: the aim of the research; description of the research method and / or methodology; new results or those having practical implementation; conclusions / recommendations / proposals.*

Please follow the rules of the abstract formatting:

Paper size A4, Times New Roman, line spacing 1, margins 2 sm, 150-200 words (excluding title and the information about the authors). Abstract language available: English. Please name the document with abstracts with the word “abstract” and your last name, like “abstract\_Smith.docx”.

Abstract structure:

**Title - centered, Times New Roman, 14, bold**

First, last name of the author <sup>1</sup>, first, last name of the author <sup>□</sup> ... - centered, Times New Roman, 14

<sup>1</sup> *place of work, city, country - centered Times New Roman, 12, italics*

<sup>□</sup> *place of work, city, country - centered Times New Roman, 12, italics*

Leave empty line

Text text text - width, Times New Roman, 12.

**Nota bene!** If the co-author of the research, mentioned in the abstract, is not going to take part in the conference, he is not required to pay a conference fee. However, in this case he/she won't get access to the conference events, materials, and a certificate of attendance, his name will only appear in the abstract.
